**Flag Status:** Completed

Good Morning:

I work for the Long Island Health Network. The Network consists of 10 hospitals in a joint venture to improve care.

We are currently working on guidelines for the prevention of UTI's, Pain, Fall, and Pressure Ulcers in a Skilled Nursing Home.

Do you have any current guidelines we could use to cover these four topics?

Thank you for your help,

Mary Zeiss, MS, MSN, RN  
Project Director
